## Retrograde Cardioplegia Cannula

The retrograde cardioplegia cannula is available in different versions, i.e. soft or ribbed balloon, flexible or stiff stylet with handle and also in different lengths.

Product Image

### FEATURES

- The soft PUR-balloon minimizes the risk of injury of the coronary sinus.
- The conical balloon saves sealing of the coronary sinus.
- The flexible guidewire minimizes injury risk of the cardiac vein.
- The stiff guidewire eases palpation of the tip while introducing.
